

INDUSTRIAL VISIT
REPORT
ON
ERDA
(VADODARA)

Department of Electrical Engineering
Noble Group of Institutions
Junagadh

Students of 7th semester, Electrical department have visited ERDA (Electrical Research and Development Association) which is located in Vadodara (Gujarat) on 25th of July 2014, Thursday. There were total 54 students along with four faculties which are Mr.RakeshAkabri, Mr.DilipsinhGohil, Mr.HemdipsinhGohil and Ms.Kruti Mehta and one lab assistant Ms.AmitaDobariya. They have arranged a bus from Junagadh and departed from Junagadh at 10:00 pm on 24th July. They reached ERDA at 9:30 am on 25th July.

First students have taken the basic information about ERDA in a seminar hall. Then all students have visited and studied all the different departments of ERDA like H.V. Laboratory, Partial Discharge test, Industrial Equipment test, Switchgear Equipment test, Transformer test, Technology & Research lab, Wearing & Insulation test and Short circuit test technology.

Also they have seen several tests on electrical equipment. Students have also seen some research work going on future projects.

At 3:00 pm, the visit had completed. After enjoying some places in Vadodara they departed from there and reached Junagadh at early morning on 25th July.

We are very thankful to ERDA for giving us permission to visit such a technically sound institute. This visit is proved to be very helpful to students for their knowledge about industrial equipment and their testing.
